

Aug Prep Athletic Training Services

St. Augustine Preparatory Academy is proud to partner with the [Froedtert & the Medical College of Wisconsin](#) health network to provide our athletes with a licensed athletic trainer and team physician.

Our school's athletic trainer is Hannah Koraly, MS, LAT. She grew in North Carolina and graduated with her Bachelor's degree in Athletic Training from UNC Chapel Hill in 2011. She worked as then Assistant, and then Head, Athletic Trainer at a K-12 school outside of Memphis, TN. After four great years, she left to further her education at George Mason University. In 2017, she received her Master's of Science in Exercise, Fitness & Health Promotion. Hannah moved to Wisconsin with her now-husband and started working at Froedtert & the Medical College of Wisconsin Sports Medicine team in September 2017. Before joining the team at Aug Prep in 2018, she worked as the athletic trainer for the Milwaukee Sting Volleyball Club in Menomonee Falls, WI.

Our school's team physician is [Beth Weinman, DO](#). After medical school, Dr. Weinman completed a Sports Medicine Fellowship here in Milwaukee at the Medical College of Wisconsin in 2014. She currently has clinic hours at Drexel Town Square Health Center in Oak Creek and McKinley Health Center in downtown Milwaukee.

The sports medicine team provides prevention, evaluation and treatment of injuries for high school athletic teams at Aug Prep. Our athletic trainer is available to our high school athletes after school on Monday-Friday, in addition to providing home event coverage.

Our sports medicine team is dedicated to providing excellent care. We work with students and the school to return athletes to their sport as soon as it is safe. Hannah is highly skilled at assessing the situation and recommending treatment. She works closely with the team physician to ensure top care in preventing, diagnosing and treating sports injuries.

Healthy Roster

In addition to the weekly hours at the school, athletes' parents can also contact a Froedtert licensed athletic trainer through the [Healthy Roster](#) app on your phone (free of charge from Froedtert & MCW).

Healthy Roster is a mobile app/website program connecting Aug Prep parents and coaches with licensed athletic trainers from Froedtert & MCW. When your child is injured playing sports, help is one tap away! To get started using Healthy Roster, look for your e-mail invite and accept the invite to access your child's account. If you do not receive an invite, please contact your Froedtert & MCW licensed athletic trainer to be added.

NX Level

In Association with Froedtert & MCW

NX Level programs are designed to help teams, groups, and individuals improve speed, flexibility, strength, endurance, nutrition, body composition and awareness in any sport – under the watchful eye of a highly trained professional performance coach.
